

Dashboard Service for NetSuite

Availent Systems' Dashboard Service for NetSuite enables you to securely display NetSuite KPIs, charts, and reports on a TV monitor via a digital signage solution, like Screenly; or any computer monitor or phone.

Key Features

- Display any Saved Search data in graphical or tabular format
- Charts and graphs update in real time as the data in NetSuite changes (i.e. new incoming order, completed job, etc.)
- Token Authentication allows any device to display your data safely and securely
- You do not need to use a NetSuite license to display your data using our tool.
